School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

The chart shows the total general purpose revenue Voices College-Bound Language Academy at West Contra Costa expects to receive in the coming year from all sources. The total revenue projected for Voices College-Bound Language Academy at West Contra Costa is $6,314,341.00, of which $4,024,632.00 is Local Control Funding Formula (LCFF), $1,600,810.00 is other state funds, $438,175.00 is local funds, and $250,724.00 is federal funds. Of the $4,024,632.00 in LCFF Funds, $798,014.00 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).
The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Voices College-Bound Language Academy at West Contra Costa plans to spend for 2023-24. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Voices College-Bound Language Academy at West Contra Costa plans to spend $6,300,363.00 for the 2023-24 school year. Of that amount, $2,996,863.00 is tied to actions/services in the LCAP and $3,303,500.00 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Business Office Expenses, Special Education and Nutrition program expenses, legal and oversight fees, insurance, equipment leases

Increased or Improved Services for High Needs Students in the LCAP for the 2023-24 School Year

In 2023-24, Voices College-Bound Language Academy at West Contra Costa is projecting it will receive $798,014.00 based on the enrollment of foster youth, English learner, and low-income students. Voices College-Bound Language Academy at West Contra Costa must describe how it intends to increase or improve services for high needs students in the LCAP. Voices College-Bound Language Academy at West Contra Costa plans to spend $895,774.00 towards meeting this requirement, as described in the LCAP.
This chart compares what Voices College-Bound Language Academy at West Contra Costa budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Voices College-Bound Language Academy at West Contra Costa estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2022-23, Voices College-Bound Language Academy at West Contra Costa 's LCAP budgeted $778,848.00 for planned actions to increase or improve services for high needs students. Voices College-Bound Language Academy at West Contra Costa actually spent $686,804.00 for actions to increase or improve services for high needs students in 2022-23. The difference between the budgeted and actual expenditures of $92,044.00 had the following impact on Voices College-Bound Language Academy at West Contra Costa’s ability to increase or improve services for high needs students:

Enrollment was lower than expected so we were able to provide the same level of services to high need students with lower expenditures for staff.
# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

## Plan Summary 2023-24

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Voices College-Bound Language Academy at West Contra Costa (Voices WCC) is a diverse and innovative school, serving a high-needs community with the mission to “prepare all students for the challenges of higher education through the context of an academically rigorous dual-language program.”

In 2022-23, Voices College Bound Language Academy at West Contra Costa served a total of 245 students with diverse needs and backgrounds across Transitional Kindergarten through 6th grade. Approximately 63% of students are Socioeconomically Disadvantaged; 58% are English Learners; and 10 (4.2%) are Reclassified Fluent English Proficient. In addition, 12.7% of students qualify for SPED (Special Education) services. Our students represent a variety of backgrounds, with our most significant populations identifying as Hispanic/Latino (97%); other ethnicities include African American (0.4%), White (0.4%), Filipino (0.8%), and Asian (1.2%). Next year the school will grow to serve students in grades K-7.

Voices believes in its students, and we believe in the power of the values that drive our efforts to support students to succeed. At the center of this is Voices’ core values of In Lak’ech, the philosophy of loving and caring for one another because we are one and “Si Se Puede” Attitude, combined with Voices school-site values of Scholarship and Activism promotes a culture that fosters positive learning experiences and encourages a connection and duty to the community we live in.

The purpose of this Local Control Accountability Plan (LCAP) is to address the School Plan for Student Achievement (SPSA) for Voices which is the Schoolwide Program; herein referred to as the LCAP. The Charter School’s plan is to effectively meet the ESSA Requirements in alignment with the LCAP and other federal, state and local programs. The plans included in the LCAP address these requirements by focusing on four broad goals: Promote the achievement of all students, particularly English Language Learners, by providing designated and integrated ELD training for all teachers to ensure all students have language learning supports in our dual-immersion model; Improve student proficiency and growth in key content areas, school-wide and for all subgroups by ensuring students and teachers have access to
standards-aligned materials and supporting teachers with data-driven instruction that responds to specific student needs with Tiered Supports; Maintaining an engaging, positive, and safe school culture and environment for students and families so that they participate fully in student learning and the school community; and recruit and maintain highly qualified teachers who are committed to the Voices vision and mission who will deliver high-quality Common Core standard based instruction.

The Charter School completed a comprehensive needs assessment of the entire school which included an analysis of verifiable state data and local performance data used to measure student outcomes as evidenced in the annual update portion of the LCAP. The needs assessment process included meeting parents, classified staff, teachers and administrators to identify areas of opportunity for the students and groups of students who are not achieving standard mastery and to identify strategies which will be implemented in the LCAP to address those areas of opportunity.

Evaluating and monitoring the implementation of the LCAP and the progress toward accomplishing the established goals will include discussing the actions and services with the use of supplemental funds at the school level through the English Learner Advisory Council. The English Learner Advisory Council will meet four times per year to inform the process. Parents, classified staff, certificated staff and an administrator will make up the council. The number of parents will exceed or be equal to the number of total staff members. The council will discuss academic performance, supplemental services and areas to make improvements with Title funds as part of the School Plan included in the LCAP conversations at the meeting in the fall and at the meeting in the spring. The teachers, staff, students and parents also participate in an annual survey which provides feedback on the goals and services. The teachers, staff and administrators actively participate in the decision making process throughout the year and during LCAP workshops. The decisions will take into account the needs of Voices based on student achievement data to include SBAC, ELPAC, and interim assessment data such as NWEA MAP, cumulative assessments, and attendance and student demographic data to include the significant subgroups of Latino, Black or African American, White, socioeconomically disadvantaged, students with disabilities, and English Learners. This student achievement data and student demographic data will be used as a basis for making decisions about the use of supplemental federal funds and the development of policies on basic core services.

Each goal includes actions and services that address the needs of all students and significant subgroups which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

In the 2022-23 school year, our school was identified for Additional Targeted Support and Improvement (ATSI). This means that based on the data from the 2022 California School Dashboard, students with disabilities were in the lowest status level for all but one of the state indicators. Students with disabilities were in the lowest status level for chronic absenteeism and in the medium level for suspension. No academic indicators were generated for this subgroup due to fewer than thirty students enrolled in grades that take the CAASPP assessments. This plan will address ways to improve our school and student outcomes for students with disabilities in particular, based on a needs assessment and identification of resource inequities.
Reflections: Successes

A description of successes and/or progress based on a review of the California School Dashboard (Dashboard) and local data.

Upon review of the 2022 Dashboard, Voices West Contra Costa is proud of the growth of English learners as evidenced by a Medium status level and 53.3% of EL students making progress on the ELPAC or maintaining at the highest level. We attribute this progress to our intervention programs for English learners and our systematic ELD teacher training. We will continue this emphasis on EL supports throughout our 2023-2024 school year.

We are also proud of our medium suspension rate status on the 2022 CA Dashboard. We attribute this success to the Dean of Culture position that was added and the SEL curriculum that has been implemented for students. Staff were also trained in both social emotional learning and restorative practices. We plan to continue these actions in the coming year.

Based on the local data, here are some successes from the 2022-23 school year:

Despite staffing challenges, the school has been able to honor teachers’ daily planning and professional development time so they are able to focus on instruction. The school also built Professional Learning Communities (PLCs) by starting with the foundation around the definition and purpose of PLCs, the role of data in the PLC process, and then progressing to how to do math and ELA data meetings. We look forward to building upon the foundation that was laid this year.

The school has also successfully supported teachers by providing instructional coaching throughout the year. All teachers participate in both weekly and end of benchmark cycle data analysis to determine areas of student progress and needs. Administering four benchmarks this year instead of three benchmarks provided teachers, staff, and administrators with valuable baseline data to inform curricular, formative assessment, and instructional groupings. Using the results of their analysis, teachers plan together on how to best meet the whole group, small group, and individual student needs. The teachers have been proud to see the results of these efforts paying off with the increased student growth. The school will continue to provide these supports to teachers next year to support continued student progress.

The school has also made progress in supporting teachers more holistically by communicating how Voices is grounded in the Mission and Vision and cares very deeply about both student results and teacher well-being. Voices provides multiple opportunities for teachers and staff to provide feedback and has addressed this feedback by providing more planning time during summer professional development, Wellness Days, and additional break time during the school year. These practices will be continued next year.

Reflections: Identified Need

A description of any areas that need significant improvement based on a review of Dashboard and local data, including any areas of low performance and significant performance gaps among student groups on Dashboard indicators, and any steps taken to address those areas.

Upon review of the 2022 CA Dashboard, Voices West Contra Costa has identified needs in the following areas:

Local Control and Accountability Plan
English Language Arts and Mathematics are at the low status level for all students and all numerically significant subgroups. Of our total student population, 58% are English Language Learners and 13% are students with disabilities. We will target these students for intervention in both ELA and Math. We will continue to focus on academic support with the following actions:

- Voices will continue to provide English Language Development training to all of our teachers. The training will include different sessions that cover our ELD curriculum or ELD strategies and background, including understanding the proficiency levels of students and what structured language practice looks like. Voices will continue to provide the opportunity for principals to participate in principal-specific ELD training and next year will more intentionally create the time and space for principals to engage in this professional development.

- Voices will provide a leadership coach for the principal and part of the coaching work will include analysis of school-level, classroom-level, and subgroup interim assessment data. School leaders will also receive coaching on best practices for differentiating for students with disabilities. This will enable the principal to better support teachers during the school-wide data analysis sessions to plan to differentiate instruction to meet the needs of all students. As a result, teachers will be able to plan whole-group reteach lessons or small group and one-on-one supports. This will also help the teacher and admin team focus on “target students” or students who would be a focus and represent the class.

- We will continue to implement weekly intellectual preparation planning sessions and weekly data meetings. Based on local data, the principal and coach work directly with grade-levels that need more support in order to increase student outcomes. Students with Disabilities and English Learners will be identified in these sessions and the principal will support teachers in planning to meet the specific needs of these individual student groups. These sessions also help teachers understand the ELA standards and texts they are teaching and to construct exemplars before teaching a lesson.

- We will provide a dedicated instructional coach to provide weekly coaching sessions based on observation in either math and ELA.

- To address the unique needs of students with disabilities, the school will provide a Student Services Manager, who will coordinate all services for special populations (504, SPED, SST, truant, etc.) The SSM also coordinates professional development for Special Education teachers and associate teachers and does walkthroughs of our inclusion program providing feedback to all teachers regarding their intervention strategies. Having a point person on the team to track data and support with coaching of teachers will help us stay focused on this subgroup as a priority for the coming years.

Chronic Absenteeism is at the very high status level for all students and all numerically significant subgroups. We implemented a tiered approach to address student attendance and participation (support in each Tier is provided in Spanish and English) and it will continue to be a focus moving forward. Tier I strategies target all students. Tier I strategies include sharing flyers with parents/guardians on attendance expectations, including reminders on attendance in parent/guardian newsletters/updates, sending reminders after winter and spring break to return to school. Tier II supports are for students that need a little more attention and support due to being absent with more regularity. Tier II strategies include Dean of Culture monitoring attendance and engagement in Tiered communications log, regular communication with parent/guardian, and SST meetings to discuss impact on learning as a result of being absent. Tier III supports are needed by students demonstrating chronic absenteeism. Students and families received individualized support and modifications. These plans are adjusted for...
students as needed. Tier III strategies include: referring students to outside support and providers, creating specialized student plans for participation, implementing a behavior plan and supporting teachers with strategies to meet students specific needs. Attendance was a complicated issue to tackle in the 2021-22 school year with students needing to quarantine at home due to being identified as close contacts and then not completing the work required to count for independent study attendance. In the 2022-23 school year attendance continued to be an area of need as Covid protocols remained in place through February which ensured safety however impacted attendance. The tiered intervention approach was used however not to fidelity given Deans of Culture’s bandwidth was impacted with having to support an increase in student behavior. We has worked more effectively, and we will continue to implement the Tiered approach however with greater fidelity in 2023-24.

Student survey results, especially for middle school students, indicate that student sense of belonging is an area of need, which is evidenced by the chronically absent rate. To address this, the Principal will work with the Dean of Culture (DoC) on student activities that promote a greater sense of connectedness as well as work with the network-level coach to analyze the Panorama student survey data to identify areas of need and create a plan to provide professional development to teachers, associate teachers, and staff members to address the area(s) of need.

2022-23: With the hiring of a site principal, there is a strong focus on reviewing the school culture plan and implementing the plan to ensure the school environment is one where students, teachers, and parents feel like they are valued members of the community. Student attendance and positive student behaviors will increase with the strengthened sense of connectedness created by a strong school culture.

LCAP Highlights

A brief overview of the LCAP, including any key features that should be emphasized.

The 2023-24 LCAP provides our plan for improvement and development. We have designed four goals which encompass the breadth of our program.

Goal 1: Promote the achievement of all students, and particularly English Language Learners by providing designated and integrated ELD training for teachers to ensure all students have language learning supports in Voices’ dual-immersion model. All teachers will be trained in research-based strategies to support English language acquisition of English Learners. Time will be devoted to proper administration and data analysis of the ELPAC to ensure teachers have accurate data to determine instructional strategies and ELD groupings.

Goal 2: Improve student proficiency and growth in key content areas, school-wide and for all subgroups by ensuring students and teachers have access to standards-aligned materials and supporting teachers with data-driven instruction that responds to specific student needs with Tiered Supports. Voices will continue to ensure that primary grades are staffed with teachers and associate teachers to ensure students have ample support. All teachers will receive coaching support and the Student Services Manager will provide additional support to teachers and students.
Goal 3: Voices Academy will maintain an engaging, positive, and safe school culture and environment for students and families so that they participate fully in student learning and the school community by providing a Dean of Culture, Enrichment Activities, an Advisory program for upper grades, as well as facilities maintenance and administrative support staff to oversee and ensure safe facilities.

Goal 4: Voices Academy will recruit and maintain highly qualified teachers who are committed to the Voices vision and mission and who will deliver high-quality Common Core standard based instruction by providing a competitive salary package, credential monitoring, support with enrollment in and completion of a teacher Induction program, summer professional development, and school leader training focused on developing teachers’ strategies to support the progress of English learners and students with disabilities.

Comprehensive Support and Improvement
An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified
A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Voices College-Bound Language Academy at West Contra Costa is a single school LEA that is not eligible for comprehensive support and improvement.

Support for Identified Schools
A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

Voices College-Bound Language Academy at West Contra Costa is a single school LEA that is not eligible for comprehensive support and improvement.

Monitoring and Evaluating Effectiveness
A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

Voices College-Bound Language Academy at West Contra Costa is a single school LEA that is not eligible for comprehensive support and improvement.
Engaging Educational Partners

A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.

Voices College-Bound Language Academy at West Contra Costa knows the importance of educational partner engagement, as it leads to developing an effective plan for the school and student success. Voices College-Bound Language Academy at West Contra Costa has used several structures to effectively communicate and engage key educational partners in the Local Control and Accountability Plan (LCAP). The process involved numerous annual meetings and surveys with educational partners to engage them in the LCAP goals and actions.

Due to our small size, Voices ELAC functions as the primary parent advisory group and also fulfills the role of the LCAP Parent Advisory Committee consisting of teachers, administrators, and parents (including at least one parent of a student with disabilities). In addition to this group that provides feedback throughout the year on the strengths and needs of our program, we also host an LCAP Overview meeting for all Staff and Parents to provide them the opportunity to provide feedback specifically about the LCAP.

Throughout the year, Voices WCC held ELAC meetings, workshops, and Cafecitos, giving parents a platform to discuss input/feedback on LCAP goals, school progress, needs, and academics. In addition, an LCAP overview was presented to educational partners and a feedback survey was sent out using our communication platform, ParentSquare. All materials were provided in English and Spanish. The following meetings listed below were hosted by Voices and educational partner feedback was collected.

Parents/guardians, teachers, staff, and school administrators have provided feedback at many of the events described and also through the Network-wide surveys. Teachers, staff, and school administrators have provided feedback at Skip Level meetings that occur twice a year. At Skip Level meetings, someone from the Voices network comes to collect feedback from each staff member on whether they are receiving the support they need to perform their job duties. Voices also conducts Listening Tours where the Voices Senior Leadership Team visits each school and meets with small groups of teachers, associate teachers, administrators, and other staff members to collect feedback.

Students provide feedback to their classroom teachers and also in the 3rd party independent survey given twice during the school year.

Cafecitos: Once a month

ELAC Meetings: October 6, November 3, February 23, 2022
SELPA review: June 2023

Voices College-Bound Language Academy at West Contra Costa evaluated its educational partner engagement opportunities and determined tribes and students represented by civil rights organizations are not served by Voices College-Bound Language Academy at West Contra Costa. Likewise, Voices College-Bound Language Academy at West Contra Costa teachers and personnel are not represented by a local bargaining unit.

A summary of the feedback provided by specific educational partners.
A summary of the feedback provided by specific educational partner groups are listed below.

Teachers/Staff/Administrators:
Teachers and administrators have requested more professional development, especially specific to meeting the needs of English Learners and Students with disabilities. They appreciate the Wellness Days and shared that with the extended school day, they need more of these Wellness Days and a longer winter break. Teachers, staff, and administrators would also like to have a site-based substitute teacher to fill in when a staff member is out because it is so hard to obtain daily substitute teachers right now. Alternatively, they would like a plan in place to ensure consistency in the program when staff is out short or long-term.

Associate Teachers would like more training in addressing student behavior needs, especially deescalation strategies. They also report needing more training in small group instruction strategies to push student thinking and increase rigor.

Teachers, staff, and administrators have all expressed the need for stronger communication between the network and the school sites. School site personnel feel uninformed about what is happening at the network level and thus feels disconnected from the larger Voices community.

Students want more enrichment and sports opportunities.

A description of the aspects of the LCAP that were influenced by specific input from educational partners.

Educational partner feedback was carefully considered and influenced the following elements of the LCAP:

Goal 3, Action 3 Engaging Supplemental Technology action has been removed based on teacher feedback that these tools are no longer useful for them as they have returned to in-person instruction.

Goal 4, Action 5 was updated to include training for school leaders on differentiation strategies for students with disabilities. The plan is for the school leaders to take the learning back to the schools and be better able to provide professional development and coaching for teachers on implementing these strategies in their classrooms.
Goals and Actions

Goal 1

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Promote the achievement of all students, and particularly for English Language Learners by providing designated and integrated ELD training to ensure all students have language learning supports in our dual-immersion model. (Priority 2, 4A, 4C, 4D, 8)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This broad goal was created because a large percentage of the Voices population is made up of English Language Learners (ELs) and all Voices students are language learners in our dual-immersion program. The majority of Voices students who are ELs also fall into our SED subgroup. The 2022 CA Dashboard indicates that English Learners are scoring below our overall population in ELA and math. Internal interim math and ELA assessments show that when compared to RFEP and English Only students, Voices EL proficiency is much lower than the overall population. Teachers and school leaders have also requested additional training and support with implementing English Language Development (ELD) and language learner strategies. Finally, an analysis of students with speech services, who are also English language learners, led us to find that teachers needed a deeper understanding of language development for both native and second languages and Voices will target that area through training outlined in the actions below. If this training is provided to all teachers and associate teachers (as appropriate), then student achievement on the metrics below will increase.

<td>Action 1</td>
<td>Systematic ELD and SIOP Teacher Training</td>
<td>If we train all of our K-7 teachers in both Systematic ELD (by EL Achieve) and the Sheltered Instruction Observation Protocol (SIOP) models, and then follow up that training with ongoing coaching, then all of our teachers will increase their knowledge of language learner strategies. This will result in teachers making the best instructional moves for language learners throughout our day (for both Spanish and English learners per our dual immersion model) which is needed based on our current EL subgroup data.</td>
<td>$2,800</td>
<td>Y</td>
</tr>
</tbody>
</table>
If we train our associate teachers to proctor initial and summative ELPAC then we are able to have data to review with teachers during ELD training, make student groups for designated ELD and address ELD gaps via instruction. This will result in more targeted instruction for English Learners in both designated and integrated ELD based on their proficiency, strengths and development because currently our data shows we can improve our instruction of ELs.

| Action 2 | ELPAC administration | $2,000 | Y |

**Goal Analysis for 2022-23**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall the actions designed to support achievement of the goal were implemented as planned.

Due to the difficulty in providing substitutes to cover classes while teachers participate in professional development, the SIOP training has taken place during the mid-day professional development block and has taken longer to complete in this format.

Students are grouped for ELD instruction based on ELPAC data. Students who are newly enrolled are quickly identified either with information from their previous school or with administration of the Initial ELPAC. Newcomers are tested right away to ensure correct placement in ELD. One challenge with the implementation of the ELD program has been a loss of instructional time during that period due to teachers needing to take time to address student behavior because they do not have a previous relationship with that student. A related issue is the difficulty in implementing ELD instruction when a teacher is out sick.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between the budgeted expenditures and estimated actual expenditures in the following action:

**Action 1 Systematic ELD and SIOP Teacher Training:** Budgeted Expenditures $2,000 and Estimated Actuals of $0 due to SIOP training being paid for in full last year, and the Systematic ELD training being provided by internal staff, rather than an external provider.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions of Systematic ELD, SIOP Teacher Training, and ELPAC administration were all effective as evidenced by the English Learner Progress Indicator (ELPI) at the medium level with 53.3% of English learners making progress or maintaining at the highest level on the

Local Control and Accountability Plan
ELPAC in 2021-22. School leadership will do further analysis of how ELD time is implemented to ensure that this instructional time is maximized and can be consistently implemented (See implementation challenges above).

The CAASPP data indicates that these actions were not effective in promoting the achievement of all students, particularly for English Language Learners on the ELA and Math assessments. (See Goal 2 analysis for further analysis of the instructional program).

It is hard to determine to what extent these actions and those actions in Goal 2 can be attributed to the data because of the high chronic absenteeism rate in 2021-22. Over 56% of Voices Contra Costa students were absent for more than 10% of the school year (See Goal 3 metrics). This lack of consistency in classroom instruction may be a significant factor in student achievement in 2021-22.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes made to the planned goal, metrics, or desired outcomes for the coming year.

Action 1 Systematic ELD and SIOP Teacher Training has been updated because all teachers have now been trained in Systematic ELD and SIOP, so only new teachers will need the training. We have added follow-up coaching to the action to ensure teachers have continued support with implementation.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goal 2

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>2</td>
<td>Improve students proficiency and growth in key content areas, school-wide and for all subgroups by ensuring students and teachers have access to standards-aligned materials and supporting teachers with data-driven instruction that responds to specific student needs with Tiered Supports (1B, 2, 7, 8)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This broad goal was developed because all students and all subgroups are demonstrating the need for additional academic support due to pandemic-related schooling disruptions. Voices internal reading and math interim assessment data shows that while some students with disabilities are performing similarly to their general population counterparts in math, our students with disabilities are still having challenges in reading comprehension and writing assignments with grade-level texts. Special education staff and general education teachers and associate teachers have both requested support with differentiation strategies in the classroom following a year of focusing on inclusion and co-teaching strategies (done in 2018-19). Voices will continue to build on that knowledge. Our response to COVID-19 pandemic and distance learning also helped us realize how key Voices associate teachers were in supporting students and mitigating learning loss. Associate teachers and their training proved invaluable to helping us make progress with students and will be even more vital as Voices looks to close an even wider gap for socio-economically disadvantaged students, students of color, English Learners and students with special needs.

<td>Action 1</td>
<td>Benchmark Assessment Licenses and Screeners</td>
<td>If we purchase benchmark assessment licenses and systems (such as Illuminate, NWEA/MAP, STAR/Renaissance, LAS Links, Achievement Network interims, Illuminate), we will have the data on how our subgroups are performing in ELA and math at the start of the year and three additional times throughout the year. We can then use this data to reflect on instruction and drive instruction for small groups, specific students or the whole group supports. We will purchase a PKRS kindergarten screener test to determine which incoming students may already need interventions, class supports, student success team support or additional tests. We can identify students with special needs early on.</td>
<td>$20,460</td>
<td>Y</td>
<td></td>
</tr>
<tr>
<td>Action 2</td>
<td>Standards Aligned Core Curriculum</td>
<td>By purchasing a curriculum for ELA (EL Education and Navigator Literature), we are providing all students with access to high-quality complex grade-level work, especially unduplicated students. Much of the curriculum includes strategies for subgroups, including ELs. This will help us stay focused on both the work of meeting students where they are at but also accelerating students' achievement by focusing on grade-level work. Curriculum includes both student and teacher materials.</td>
<td>$5,500</td>
<td>N</td>
<td></td>
</tr>
<tr>
<td>Action 3</td>
<td>Staff Coaching support</td>
<td>If we provide staff with coaching support through a full-time coach in addition to a principal who also coaches, we can support teachers with their data-analysis skills during data meetings, with professional development and coaching/observations, with their engagement techniques with real-time coaching and help them plan for small group reteach, tier 1 and tier 2 strategies or specific student needs. This will help us increase academic achievement for all students, but in particular for students with special needs and socioeconomically disadvantaged students.</td>
<td>$240,410</td>
<td>Y</td>
<td></td>
</tr>
<tr>
<td>Action 4</td>
<td>Associate teachers (Title I and LCFF S&amp;C)</td>
<td>Provide associate teachers in primary grades in order to provide academic support. Associate teachers are needed to support and monitor the academic achievement and learning progress of unduplicated students. Associate teachers support in the form of one-on-one, small group and whole group instruction based on teacher data analysis and teacher planning; by supporting the teacher with formative assessments and the school with diagnostics, by providing daily enrichment to students. This creates more adult:student ratios and differentiated learning for all students. The Associate Teachers action is an evidence-based educational strategy designed to meet the needs of our students identified through the comprehensive needs assessment in order to support them to meet the challenging State academic content standards.</td>
<td>$222,319</td>
<td>Y</td>
<td></td>
</tr>
<tr>
<td>Action 5</td>
<td>Technology and programs for adaptive intervention programs</td>
<td>If the school purchases additional classroom technology such as student laptops and iPads and additional programs for blended learning, these resources will allow us to provide targeted intervention lessons to students in ELA and math. These programs may include Dreambox, Achieve3000/SmartyAnts and their associated professional development costs. Students will use these programs during centers or independent learning times while teachers work with small groups so that all students are continuing to receive instruction at their level in addition to grade-level content. Small group and personalized instruction will support English learners, Socioeconomically disadvantaged students, as well as students with disabilities.</td>
<td>$112,440</td>
<td>Y</td>
<td></td>
</tr>
<tr>
<td>Action 6</td>
<td>Formative assessment programs</td>
<td>If we purchase informal assessment and participation systems (such as GoFormative), we will have daily and weekly data to review in data meetings. We can then use this data to reflect on instruction in smaller cycles and impact instruction for small groups and specific students. Our associate teachers, special education teachers and general education teachers can work to pull small groups.</td>
<td>$2,000</td>
<td>N</td>

</tbody>
</table>
associate teachers. They do walkthroughs of our inclusion program as well and provide feedback to all teachers regarding their intervention strategies. Having a point person on the team to track data and support with coaching of teachers will help us stay focused on this subgroup as a priority for the coming years.

Action 8  LAS Links administration

If we purchase and train our associate teachers to proctor LAS Links (Spanish language proficiency) to measure Spanish language development our teachers will have data to know where their students all land in terms of language development. They can then modify lessons or better integrate language learner strategies in specific Spanish language or content area lessons. $2,000 N

Action 9  Small class sizes, teacher recruitment & retention

If we provide small class sizes and invest in teacher recruitment and retention by providing bonuses and raises to ensure a competitive compensation package, we will be able to employ and retain highly qualified teachers who will be able to provide more individualized instruction for students resulting in higher outcomes in student achievement. $325,459 Y

Goal Analysis for 2022-23

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall the actions designed to support achievement of the goal were implemented as planned.

Having the additional support from an instructional coach for development of individual teachers as well as the guidance of the overall instructional program has been successful this year. Teachers appreciate the data analysis and planning time available each day during the mid-day pay professional development block. It has been challenging for teachers to navigate their role without the consistent guidance of a principal for the first half of the school year. Teacher positions are now fully staffed and the teachers are all planning to return next year knowing that there is now both a principal and instructional coach to guide the work and provide needed support. The Special Education Associate Teachers appreciate the support of the Student Services Manager and the Education Specialist to provide appropriate accommodations for students with disabilities.
An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between the budgeted expenditures and estimated actual expenditures in the following actions:

Action 2 Standards Aligned Core Curriculum budgeted $14,585 and estimated actuals $11,400 due to not purchasing as many sets of Navigator novels as planned and a reduced budget due to lower than projected enrollment.

Action 3 Staff Coaching Support budgeted expenditures $237,947 and estimated actuals $170,419 due to the principal position not being filled until December.

Action 5 Technology and programs for adaptive intervention programs budgeted $51,869 and estimated actuals $71,700 due to the need to replace more student and staff devices than anticipated.

Action 6 Formative Assessment programs budgeted $3,000 and estimated actuals $0 due to not purchasing the GoFormative program this year.

An explanation of how effective the specific actions were in making progress toward the goal.

The action of Staff Coaching was highly effective. 100% of teachers received professional development in academic content and performance standards.

Also, the Standards Aligned Core Curriculum action was effective. 100% of students had access to standards-aligned materials.

The actions of Benchmark Assessment Licenses and Screeners, Associate teachers, Technology and programs for adaptive intervention programs, Formative assessment programs, Student Services Manager, and LAS Links administration worked together to achieve a high level of effectiveness with 42% of students proficient in 22-23 on the Internal Math Assessment K-8 in Benchmark 2 in December, compared to the 45% proficient at Benchmark 3 in March of last year. There is also effectiveness of these actions evidenced by ELA achievement with 21% of students proficient in 22-23 on the Internal ELA Assessment 2-8 in Benchmark 2, compared to 24% at Benchmark 3 in March of last year. Additionally, these collective actions were somewhat effective with 49% of students meeting Reading MAP growth goals and 33% of students meeting Math MAP growth goals.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes being made to the planned goal, metrics, desired outcomes, or actions for the coming year.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year’s actions may be found in the Contributing Actions Annual Update Table.
Goal 3

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Voices will maintain an engaging, positive, and safe school culture and environment for students and families so that they participate fully in student learning and the school community. (1C, 3A, 3B, 5A, 5B, 5C, 6A, 6B, 6C, 7, 8)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

This broad goal was created to ensure a positive school culture that fosters student engagement and results in increased daily attendance, reduced chronic absenteeism and reduced suspension rates. Chronic absenteeism is an area that needs improvement. In the 2021-22 school year the pandemic continued to impact student attendance. At Voices, students had to quarantine at home if/when they were identified as close contacts. Often, after such quarantines students often did not complete the required work to count for independent study attendance. In addition, the COVID requirement of completing a health screening to attend school resulted in parents/guardians keeping students home if any concerning symptom was noted. In 2022-23 Voices held all Covid protocols in place until February so the challenges listed about post pandemic recovery still warrants an increased focus on students’ needs to rediscover a sense of belonging and connectedness to school and a focus on their social emotional wellbeing in order for academic growth to accelerate optimally for the longer term. Behavior, Restorative Practice and SEL training was conducted with instructional staff, support staff and administrative staff. Additional staff and training is still needed. Parent/guardian participation was impacted in 2021-22 as Covid Protocols impacted the ability for parents to be on campus and in 2022-23 the year started with Covid Protocols requiring proof of vaccination or a negative Covid Test making attending on-site parent/guardian meetings challenging for some families and required much more time and effort by school staff. These protocols ensured continued safety but overall impacted parent/guardian engagement.

<td>Y</td>
</tr>
</tbody>
</table>
**Goal Analysis for 2022-23**

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

The school has a Dean of Culture who was out on maternity leave during the first semester of the school year. During that time, implementation of the social emotional learning and enrichment curriculum was not consistent. Now that she has returned, she is supporting with enrichment, behavior needs, and parent/guardian engagement. She is working on parent/guardian events and getting parents/guardians cleared to volunteer. The school did not institute the Advisory Council, Grupo Estudiantil for the middle school students.
because there was only a small group of sixth graders this year staffing challenges. In addition, we did not utilize the supplemental technology programs Nearpod or PearDeck premium because of the return to in-person instructional practices.

The Admin Support Staff action has also not been implemented as planned due to several support staff being out on leave and staffing being provided by temporary staffing agencies. The facility is being maintained as planned and attendance is being reported, but the level of communication and follow through if there are issues is not the same as it would be with regular staff members in these positions.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between the budgeted expenditures and estimated actual expenditures in the following action:
Action 2 Enrichment Activities and Advisory Curriculum budgeted expenditures $23,570 and estimated actuals $580 due to the school not purchasing Arts in Action or Playworks programs this year.

An explanation of how effective the specific actions were in making progress toward the goal.

The Dean of Culture, and Enrichment Activities were effective in promoting a positive school culture. These actions were effective in achieving 100% of students receiving a broad course of study provided, including unduplicated pupils (as measured by report card). The Dean of Culture’s effectiveness is also evident with the Medium suspension rate of 1.3% in 2021-22.

Family survey data shows 73% of respondents with favorable responses to the question about school safety. However, the 13% response rate to the family survey is an area in need of improvement.

The Facility Maintenance and Admin Support staff actions were effective at conducting 6 walkthroughs per year and ensuring the school facility is in good repair.

The Engaging Supplemental Technology action was not effective because it was not implemented due to the return to full in-person instruction.

Chronic Absenteeism is at the very high status level for all students and all numerically significant subgroups. We implemented a tiered approach to address student attendance and participation (support in each Tier is provided in Spanish and English) and it will continue to be a focus moving forward. Tier I strategies target all students. Tier I strategies include sharing flyers with parents/guardians on attendance expectations, including reminders on attendance in parent/guardian newsletters/updates, sending reminders after winter and spring break to return to school. Tier II supports are for students that need a little more attention and support due to being absent with more regularity. Tier II strategies include Dean of Culture monitoring attendance and engagement in Tiered communications log, regular communication with parent/guardian, and SST meetings to discuss impact on learning as a result of being absent. Tier III supports are needed by students demonstrating chronic absenteeism. Students and families received individualized support and modifications. These plans are adjusted for students as needed. Tier III strategies include: referring students to outside support and providers, creating specialized student plans for...
participation, implementing a behavior plan and supporting teachers with strategies to meet students specific needs. Attendance was a complicated issue to tackle in the 2021-22 school year with students needing to quarantine at home due to being identified as close contacts and then not completing the work required to count for independent study attendance. In the 2022-23 school year attendance continued to be an area of need as Covid protocols remained in place through February which ensured safety however impacted attendance. The tiered intervention approach was used however not to fidelity given Deans of Culture was on leave the first half of the school year and her bandwidth was impacted with having to support an increase in student behavior. We will continue to implement the Tiered approach however with greater fidelity in 2023-24.

Student survey results, especially for middle school students, indicate that student sense of belonging is an area of need, which is evidenced by the chronically absent rate. To address this, the Principal will work with the Dean of Culture on student activities that promote a greater sense of connectedness as well as work with the network-level coach to analyze the Panorama student survey data to identify areas of need and create a plan to provide professional development to teachers, associate teachers, and staff members to address the area(s) of need.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

The Engaging Supplemental Technology action has been removed based on teacher feedback that these tools are no longer useful for them as they have returned to in-person instruction.

A Student Success and Positive Behavior Support action has been added as Action 3 for 2023-24 to address the need for additional support for school staff in supporting student behavior and student engagement to reduce suspension and chronic absence rates.

A report of the Total Estimated Actual Expenditures for last year’s actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.
Goal 4

<table>
<thead>
<tr>
<th>Goal #</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Voices Academy will recruit and maintain highly qualified teachers who are committed to the Voices Vision and mission who will deliver high-quality Common Core standard based instruction. (Broad Goal -Priority 1A, 6C)</td>
</tr>
</tbody>
</table>

An explanation of why the LEA has developed this goal.

Voices serves a traditionally underserved, low-income, Latino and English Learner student population. This group has been hit particularly hard with COVID-19 pandemic related learning loss. While Voices was able to provide a strong virtual and hybrid program in 2020-21, research and our own internal data has shown that students did not meet growth goals. In particular, Voices K-1 students faced challenges in literacy instruction online and we expect that Voices will need highly-trained teachers to support the resulting learning loss. Voices has to make sure our teachers have the mindset, will and skill necessary to tackle the challenges of post-pandemic education and that they will work to achieve positive student outcomes. Coupled with the California teacher shortage before COVID-19, and that many educators have been leaving the profession, Voices foresees a challenge in being able to fill these roles. We know pandemic related learning loss will have an impact on students for years to come, and the more Voices can develop and retain highly-qualified, mission-driven teachers, the better for our students.

Goal Analysis for 2022-23

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Overall the actions designed to support achievement of the goal were implemented as planned, except the new principal was hired midway through the year and did not have the opportunity to participate in the Leadership strand of the SIOP training this year.

A success with the Highly Qualified Teachers action is that the school is now fully staffed with teachers. One of the teachers who was recently hired did not have the benefit of the summer professional development though. Any teacher who is hired late misses out on summer professional development opportunities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were material differences between the budgeted expenditures and estimated actual expenditures in the following actions:

Action 1 Induction Program budgeted expenditures $3,500 and estimated actuals $7,000 due to two teachers needing to participate in the induction program, instead of the 1 expected to participate.

Action 3 Highly Qualified Teachers budgeted expenditures $694,268 and estimated actuals $518,930 due to reduced enrollment requiring fewer teachers.

Action 4 Summer Professional Development budgeted expenditures $3,300 and estimated actuals $4,537 due to additional purchases of meals for teachers during the summer training.

Action 5 School Leader Training budgeted expenditures $5,000 and estimated actuals $0 because the school leader did not take advantage of the budget available to them for their professional development.

An explanation of how effective the specific actions were in making progress toward the goal.

The actions of the Induction Program, Credential Monitoring, Highly qualified teachers, and Summer Professional Development were highly effective in achieving 100% completing the induction program. Hiring highly qualified teachers is a challenge amidst the current teacher shortage. Voices supports its teachers in obtaining the appropriate waiver or permit while they are in the process of earning their full teaching credential.

The School Leader Training was not effective because it was not implemented as planned this year.
A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

There are no changes made to the planned goal, metrics, or desired outcomes for the coming year.

The description of the school leader training has been modified to include training school leaders on data analysis and differentiation strategies for students with disabilities, in addition to English learner strategies. This is based on identified needs for both subgroups of students.

The Budgeted Expenditures for Actions identified as Contributing may be found in the Contributing Actions Table.

Required Descriptions

For each action being provided to an entire school, or across the entire school district or county office of education (COE), an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

A- Academic Growth and Achievement

Needs

In reviewing the 2022 ELA and Math performance of Voices English Learners and socioeconomically disadvantaged students, we find that they had Low performance in both. Voices had Medium performance in 2022 on the English Learner Progress Indicator, with 53.3% of students making progress towards English language proficiency.

Actions

Based on a review of data, Voices has designed the LCAP to implement strategies that effectively address learning gaps where needed while promoting rigorous grade level instruction. Voices has planned for extensive professional development in English language acquisition strategies and data analysis for both teachers and school leaders. We provide additional training for Associate Teachers to ensure they can administer the ELPAC assessments in order to provide high quality data for making instructional decisions. Voices has selected a variety of curricular and instructional resources, supported by appropriate technology, that allow students to learn and practice both at grade level and with personalized content to fill gaps and advance skills. This is coupled with a comprehensive assessment system that monitors student
progress towards meeting grade level standards and informs our comprehensive system of academic support. The academic support begins with small class sizes supplemented with Associate Teachers further reducing the student to teacher ratios in our primary grade classrooms and allowing for more individualized attention and instruction for students. Voices has invested in recruiting and retaining our high-quality teachers this year to ensure students' needs continue to be met with the best personnel available. All teachers receive coaching support to ensure they can use the most effective teaching strategies for the highest need students, whether those are students significantly behind, those with special needs, English learners, foster youth or students of low economic status.

Goal 1, Action 1 Systematic ELD and SIOP Teacher Training
Goal 2, Action 2 ELPAC Administration
Goal 2, Action 1 Benchmark Assessment Licenses and Screeners
Goal 2, Action 3 Staff Coaching support
Goal 2, Action 4 Associate teachers
Goal 2, Action 5 Technology and programs for adaptive intervention programs
Goal 2, Action 9 Small Class Sizes, teacher recruitment & retention
Goal 3, Action 1 Dean of Culture

Expected Outcomes

By implementing the identified actions, Voices will ensure steady growth in our academic outcomes, such as SBAC ELA and Math, English Learner Progress, and Reclassification rates. Current targets aim growth within the next two years for both ELA and Math (see expected outcomes in Goal 1), and growth in the English Learner Progress Indicator to 55% and to increase our reclassification rate to 10%. Voices plans to use interim assessment data to gauge progress throughout the year.

B- Climate and Culture

Needs, Conditions, Circumstances

According to the 2022 CA Dashboard, the Chronic Absence rate was Very High for both English learners at 55.4% and for Socioeconomically disadvantaged students at 59.3%.

Actions

Based on the data, Voices sees positive signs of the impact of our efforts to foster a positive culture and climate in support of students both holistically and academically. Key components of these additional efforts include providing a Dean of Culture who promotes an engaging, positive and safe school culture and environment that will maintain desired attendance and student engagement. The Dean of Culture will train staff on the use of our social emotional Curriculum and oversee enrichment programs at the school. The Dean of Culture will provide
Voices College-Bound Language Academy at West Contra Costa is increasing services for foster youth, English Learners, and low-income students 27.8% through the following LEA-wide actions:

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.
Voices College-Bound Language Academy at West Contra Costa is a single school LEA with a greater than 55% unduplicated pupil population that will use the additional concentration grant add-on funding to increase the number of staff providing direct services to students through the following action(s):

Goal 2, Action 4 Associate teachers $155,623

Provide associate teachers in primary grades in order to provide academic support. Associate teachers are needed to support and monitor the academic achievement and learning progress of unduplicated students. Associate teachers support in the form of one-on-one, small group and whole group instruction based on teacher data analysis and teacher planning; by supporting the teacher with formative assessments and the school with diagnostics, by providing daily enrichment to students. This creates more adult:student ratios and differentiated learning for all students.

**Instructions**

**Plan Summary**

**Engaging Educational Partners**

**Goals and Actions**

**Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students**

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at lcff@cde.ca.gov.*

**Introduction and Instructions**

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA’s programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because aspects of the LCAP template require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
o Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

o Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).

The LCAP template, like each LEA’s final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which should: (a) reflect comprehensive strategic planning (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity’s budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2021–22, 2022–23, and 2023–24 school years reflects statutory changes made through Assembly Bill 1840 (Committee on Budget), Chapter 243, Statutes of 2018. These statutory changes enhance transparency regarding expenditures on actions included in the LCAP, including actions that contribute to meeting the requirement to increase or improve services for foster youth, English learners, and low-income students, and to streamline the information presented within the LCAP to make adopted LCAPs more accessible for educational partners and the public.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA’s diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the California School Dashboard (Dashboard), how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions that the LEA believes, based on input gathered from educational partners, research, and experience, will have the biggest impact on behalf of its TK–12 students.
These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP itself. Additionally, information is included at the beginning of each section emphasizing the purpose that each section serves.

**Plan Summary**

**Purpose**

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA’s community as well as relevant information about student needs and performance. In order to provide a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included in the subsequent sections of the LCAP.

**Requirements and Instructions**

**General Information** – Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA. For example, information about an LEA in terms of geography, enrollment, or employment, the number and size of specific schools, recent community challenges, and other such information as an LEA wishes to include can enable a reader to more fully understand an LEA’s LCAP.

**Reflections: Successes** – Based on a review of performance on the state indicators and local performance indicators included in the Dashboard, progress toward LCAP goals, local self-assessment tools, input from educational partners, and any other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying specific examples of how past increases or improvements in services for foster youth, English learners, and low-income students have led to improved performance for these students.

**Reflections: Identified Need** – Referring to the Dashboard, identify: (a) any state indicator for which overall performance was in the “Red” or “Orange” performance category or any local indicator where the LEA received a “Not Met” or “Not Met for Two or More Years” rating AND (b) any state indicator for which performance for any student group was two or more performance levels below the “all student” performance. What steps is the LEA planning to take to address these areas of low performance and performance gaps? An LEA that is required to include a goal to address one or more consistently low-performing student groups or low-performing schools must identify that it is required to include this goal and must also identify the applicable student group(s) and/or school(s). Other needs may be identified using locally collected data including data collected to inform the self-reflection tools and reporting local indicators on the Dashboard.

**LCAP Highlights** – Identify and briefly summarize the key features of this year’s LCAP.

**Comprehensive Support and Improvement** – An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:
● **Schools Identified**: Identify the schools within the LEA that have been identified for CSI.

● **Support for Identified Schools**: Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

● **Monitoring and Evaluating Effectiveness**: Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

### Engaging Educational Partners

#### Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Statute and regulations specify the educational partners that school districts and COEs must consult when developing the LCAP: teachers, principals, administrators, other school personnel, local bargaining units of the LEA, parents, and students. Before adopting the LCAP, school districts and COEs must share it with the Parent Advisory Committee and, if applicable, to its English Learner Parent Advisory Committee. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Statute requires charter schools to consult with teachers, principals, administrators, other school personnel, parents, and students in developing the LCAP. The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals and actions.

Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the following web page of the CDE’s website: [https://www.cde.ca.gov/re/lc/](https://www.cde.ca.gov/re/lc/).
Requirements and Instructions

Below is an excerpt from the 2018–19 Guide for Annual Audits of K–12 Local Education Agencies and State Compliance Reporting, which is provided to highlight the legal requirements for engagement of educational partners in the LCAP development process:

Local Control and Accountability Plan:
For county offices of education and school districts only, verify the LEA:

a) Presented the local control and accountability plan to the parent advisory committee in accordance with Education Code section 52062(a)(1) or 52068(a)(1), as appropriate.

b) If applicable, presented the local control and accountability plan to the English learner parent advisory committee, in accordance with Education Code section 52062(a)(2) or 52068(a)(2), as appropriate.

c) Notified members of the public of the opportunity to submit comments regarding specific actions and expenditures proposed to be included in the local control and accountability plan in accordance with Education Code section 52062(a)(3) or 52068(a)(3), as appropriate.

d) Held at least one public hearing in accordance with Education Code section 52062(b)(1) or 52068(b)(1), as appropriate.

e) Adopted the local control and accountability plan in a public meeting in accordance with Education Code section 52062(b)(2) or 52068(b)(2), as appropriate.

Prompt 1: “A summary of the process used to engage educational partners and how this engagement was considered before finalizing the LCAP.”

Describe the engagement process used by the LEA to involve educational partners in the development of the LCAP, including, at a minimum, describing how the LEA met its obligation to consult with all statutorily required educational partners as applicable to the type of LEA. A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

Prompt 2: “A summary of the feedback provided by specific educational partners.”

Describe and summarize the feedback provided by specific educational partners. A sufficient response to this prompt will indicate ideas, trends, or inputs that emerged from an analysis of the feedback received from educational partners.
Prompt 3: “A description of the aspects of the LCAP that were influenced by specific input from educational partners.”

A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. The response must describe aspects of the LCAP that were influenced by or developed in response to the educational partner feedback described in response to Prompt 2. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP. For the purposes of this prompt, “aspects” of an LCAP that may have been influenced by educational partner input can include, but are not necessarily limited to:

- Inclusion of a goal or decision to pursue a Focus Goal (as described below)
- Inclusion of metrics other than the statutorily required metrics
- Determination of the desired outcome on one or more metrics
- Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
- Inclusion of action(s) or a group of actions
- Elimination of action(s) or group of actions
- Changes to the level of proposed expenditures for one or more actions
- Inclusion of action(s) as contributing to increased or improved services for unduplicated students
- Determination of effectiveness of the specific actions to achieve the goal
- Determination of material differences in expenditures
- Determination of changes made to a goal for the ensuing LCAP year based on the annual update process
- Determination of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal should be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.
Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs should consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard in determining whether and how to prioritize its goals within the LCAP.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- **Focus Goal**: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.

- **Broad Goal**: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.

- **Maintenance of Progress Goal**: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

At a minimum, the LCAP must address all LCFF priorities and associated metrics.

**Focus Goal(s)**

**Goal Description**: The description provided for a Focus Goal must be specific, measurable, and time bound. An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach. The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

**Explanation of why the LEA has developed this goal**: Explain why the LEA has chosen to prioritize this goal. An explanation must be based on Dashboard data or other locally collected data. LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners. LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Broad Goal**

**Goal Description**: Describe what the LEA plans to achieve through the actions included in the goal. The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal. The goal description organizes the actions and expected outcomes in a cohesive and consistent manner. A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.
**Explanation of why the LEA has developed this goal:** Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

**Goal Description:** Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP. Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP. The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

**Explanation of why the LEA has developed this goal:** Explain how the actions will sustain the progress exemplified by the related metrics.

**Required Goals**

In general, LEAs have flexibility in determining what goals to include in the LCAP and what those goals will address; however, beginning with the development of the 2022–23 LCAP, LEAs that meet certain criteria are required to include a specific goal in their LCAP.

**Consistently low-performing student group(s) criteria:** An LEA is eligible for Differentiated Assistance for three or more consecutive years based on the performance of the same student group or groups in the Dashboard. A list of the LEAs required to include a goal in the LCAP based on student group performance, and the student group(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at [https://www.cde.ca.gov/fg/aa/lc/](https://www.cde.ca.gov/fg/aa/lc/).

- **Consistently low-performing student group(s) goal requirement:** An LEA meeting the consistently low-performing student group(s) criteria must include a goal in its LCAP focused on improving the performance of the student group or groups that led to the LEA’s eligibility for Differentiated Assistance. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, this student group or groups. An LEA required to address multiple student groups is not required to have a goal to address each student group; however, each student group must be specifically addressed in the goal. This requirement may not be met by combining this required goal with another goal.

- **Goal Description:** Describe the outcomes the LEA plans to achieve to address the needs of, and improve outcomes for, the student group or groups that led to the LEA’s eligibility for Differentiated Assistance.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the student group(s) that lead to the LEA being required to develop this goal, how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the student group(s), and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes identified in the goal description.
Low-performing school(s) criteria: The following criteria only applies to a school district or COE with two or more schools; it does not apply to a single-school district. A school district or COE has one or more schools that, for two consecutive years, received the two lowest performance levels on all but one of the state indicators for which the school(s) receive performance levels in the Dashboard and the performance of the “All Students” student group for the LEA is at least one performance level higher in all of those indicators. A list of the LEAs required to include a goal in the LCAP based on school performance, and the school(s) that lead to identification, may be found on the CDE’s Local Control Funding Formula web page at https://www.cde.ca.gov/fg/aa/lc/.

- **Low-performing school(s) goal requirement:** A school district or COE meeting the low-performing school(s) criteria must include a goal in its LCAP focusing on addressing the disparities in performance between the school(s) and the LEA as a whole. This goal must include metrics, outcomes, actions, and expenditures specific to addressing the needs of, and improving outcomes for, the students enrolled at the low-performing school or schools. An LEA required to address multiple schools is not required to have a goal to address each school; however, each school must be specifically addressed in the goal. This requirement may not be met by combining this goal with another goal.

- **Goal Description:** Describe what outcomes the LEA plans to achieve to address the disparities in performance between the students enrolled at the low-performing school(s) and the students enrolled at the LEA as a whole.

- **Explanation of why the LEA has developed this goal:** Explain why the LEA is required to develop this goal, including identifying the schools(s) that lead to the LEA being required to develop this goal; how the actions and associated metrics included in this goal differ from previous efforts to improve outcomes for the school(s); and why the LEA believes the actions, metrics, and expenditures included in this goal will help achieve the outcomes for students enrolled at the low-performing school or schools identified in the goal description.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes. LEAs are encouraged to identify metrics for specific student groups, as appropriate, including expected outcomes that would reflect narrowing of any existing performance gaps.

Include in the baseline column the most recent data associated with this metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2019 Dashboard for the baseline of a metric only if that data represents the most recent available (e.g., high school graduation rate).

Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS. Because final 2020–21 outcomes on some metrics may not be computable at the time the 2021–24 LCAP is adopted (e.g., graduation rate, suspension rate), the most recent data available may include a point in time calculation taken each year on the same date for comparability purposes.
The baseline data shall remain unchanged throughout the three-year LCAP.

Complete the table as follows:

- **Metric**: Indicate how progress is being measured using a metric.
- **Baseline**: Enter the baseline when completing the LCAP for 2021–22. As described above, the baseline is the most recent data associated with a metric. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 1 Outcome**: When completing the LCAP for 2022–23, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 2 Outcome**: When completing the LCAP for 2023–24, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above.
- **Year 3 Outcome**: When completing the LCAP for 2024–25, enter the most recent data available. Indicate the school year to which the data applies, consistent with the instructions above. The 2024–25 LCAP will be the first year in the next three-year cycle. Completing this column will be part of the Annual Update for that year.
- **Desired Outcome for 2023–24**: When completing the first year of the LCAP, enter the desired outcome for the relevant metric the LEA expects to achieve by the end of the 2023–24 LCAP year.

Timeline for completing the "Measuring and Reporting Results" part of the Goal.

<td>Enter information in this box when completing the LCAP for 2021–22 or when adding a new metric.</td>
</tr>
</tbody>
</table>
The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year as applicable to the type of LEA. To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant self-reflection tool for local indicators within the Dashboard.

**Actions**: Enter the action number. Provide a short title for the action. This title will also appear in the action tables. Provide a description of the action. Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the summary tables. Indicate whether the action contributes to meeting the increase or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No. *(Note: for each such action offered on an LEA-wide or schoolwide basis, the LEA will need to provide additional information in the Increased or Improved Summary Section to address the requirements in California Code of Regulations, Title 5 [5 CCR] Section 15496(b) in the Increased or Improved Services Section of the LCAP)*.

**Actions for English Learners**: School districts, COEs, and charter schools that have a numerically significant English learner student subgroup must include specific actions in the LCAP related to, at a minimum, the language acquisition programs, as defined in EC Section 306, provided to students and professional development activities specific to English learners.

**Actions for Foster Youth**: School districts, COEs, and charter schools that have a numerically significant Foster Youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to Foster Youth students.

**Goal Analysis**:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

- Describe the effectiveness of the specific actions to achieve the articulated goal as measured by the LEA. In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal. When responding to this prompt, LEAs...
may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose
A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Requirements and Instructions

**Projected LCFF Supplemental and/or Concentration Grants:** Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of low income, foster youth, and English learner students.

**Projected Additional LCFF Concentration Grant (15 percent):** Specify the amount of additional LCFF concentration grant add-on funding, as described in EC Section 42238.02, that the LEA estimates it will receive in the coming year.

**Projected Percentage to Increase or Improve Services for the Coming School Year:** Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 CCR Section 15496(a)(7).

**LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
**LCFF Carryover — Dollar:** Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

**Total Percentage to Increase or Improve Services for the Coming School Year:** Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEAs percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

**Required Descriptions:**

For each action being provided to an entire school, or across the entire school district or COE, an explanation of (1) how the needs of foster youth, English learners, and low-income students were considered first, and (2) how these actions are effective in meeting the goals for these students.

For each action included in the Goals and Actions section as contributing to the increased or improved services requirement for unduplicated pupils and provided on an LEA-wide or schoolwide basis, the LEA must include an explanation consistent with 5 CCR Section 15496(b). For any such actions continued into the 2021–24 LCAP from the 2017–2020 LCAP, the LEA must determine whether or not the action was effective as expected, and this determination must reflect evidence of outcome data or actual implementation to date.

**Principally Directed and Effective:** An LEA demonstrates how an action is principally directed towards and effective in meeting the LEA’s goals for unduplicated students when the LEA explains how:

- It considers the needs, conditions, or circumstances of its unduplicated pupils;
- The action, or aspect(s) of the action (including, for example, its design, content, methods, or location), is based on these considerations; and
- The action is intended to help achieve an expected measurable outcome of the associated goal.

As such, the response provided in this section may rely on a needs assessment of unduplicated students.

Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient. Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increase or improve services standard because enrolling students is not the same as serving students.

For example, if an LEA determines that low-income students have a significantly lower attendance rate than the attendance rate for all students, it might justify LEA-wide or schoolwide actions to address this area of need in the following way:
After assessing the needs, conditions, and circumstances of our low-income students, we learned that the attendance rate of our low-income students is 7 percent lower than the attendance rate for all students. (Needs, Conditions, Circumstances [Principally Directed])

In order to address this condition of our low-income students, we will develop and implement a new attendance program that is designed to address some of the major causes of absenteeism, including lack of reliable transportation and food, as well as a school climate that does not emphasize the importance of attendance. Goal N, Actions X, Y, and Z provide additional transportation and nutritional resources as well as a districtwide educational campaign on the benefits of high attendance rates. (Contributing Action[s])

These actions are being provided on an LEA-wide basis and we expect/hope that all students with less than a 100 percent attendance rate will benefit. However, because of the significantly lower attendance rate of low-income students, and because the actions meet needs most associated with the chronic stresses and experiences of a socio-economically disadvantaged status, we expect that the attendance rate for our low-income students will increase significantly more than the average attendance rate of all other students. (Measurable Outcomes [Effective In])

COEs and Charter Schools: Describe how actions included as contributing to meeting the increased or improved services requirement on an LEA-wide basis are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above. In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

For School Districts Only:

Actions Provided on an LEA-Wide Basis:

Unduplicated Percentage > 55 percent: For school districts with an unduplicated pupil percentage of 55 percent or more, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities as described above.

Unduplicated Percentage < 55 percent: For school districts with an unduplicated pupil percentage of less than 55 percent, describe how these actions are principally directed to and effective in meeting its goals for unduplicated pupils in the state and any local priorities. Also describe how the actions are the most effective use of the funds to meet these goals for its unduplicated pupils. Provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions Provided on a Schoolwide Basis:

School Districts must identify in the description those actions being funded and provided on a schoolwide basis, and include the required description supporting the use of the funds on a schoolwide basis.
For schools with 40 percent or more enrollment of unduplicated pupils: Describe how these actions are principally directed to and effective in meeting its goals for its unduplicated pupils in the state and any local priorities.

For school districts expending funds on a schoolwide basis at a school with less than 40 percent enrollment of unduplicated pupils: Describe how these actions are principally directed to and how the actions are the most effective use of the funds to meet its goals for foster youth, English learners, and low-income students in the state and any local priorities.

A description of how services for foster youth, English learners, and low-income students are being increased or improved by the percentage required.

Consistent with the requirements of 5 CCR Section 15496, describe how services provided for unduplicated pupils are increased or improved by at least the percentage calculated as compared to the services provided for all students in the LCAP year. To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are included in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided on an LEA-wide or schoolwide basis or provided on a limited basis to unduplicated students. A limited action is an action that only serves foster youth, English learners, and/or low-income students. This description must address how these action(s) are expected to result in the required proportional increase or improvement in services for unduplicated pupils as compared to the services the LEA provides to all students for the relevant LCAP year.

For any action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage. See the instructions for determining the Planned Percentage of Improved Services for information on calculating the Percentage of Improved Services.

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in EC Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:
An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of full time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.

- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA. The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA. The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

**Action Tables**

Complete the Data Entry Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Data Entry Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. With the exception of the Data Entry Table, the word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:
